

Christophe Bailly is a Professor of Fluid Dynamics and Acoustics at the Ecole Centrale de Lyon (ECL) in France and is the head of the Centre for Acoustic Research (ECL). He graduated from ECL (1990), received his PhD in Aeroacoustics from the Ecole Centrale Paris in 1994. After one year spent at the Centre National des Etudes Spatiales (CNES), he joined the Laboratoire de Mécanique des Fluides et d'Acoustique (Centre National de la Recherche Scientifique, CNRS UMR 5509) at ECL in 1995. He serves as lecturer in aeroacoustics at the Ecole Nationale Supérieure des Techniques Avancées (ENSTA ParisTech) since 2001, and is also with the Institut Universitaire de France (junior member 2007). His research activities lie in the area of turbulence, aeroacoustics and sound propagation. He is co-author with Geneviève Comte-Bellot of one textbook in turbulence (2nd version in English), has authored or co-authored more than 100 papers in refereed journals and co-supervised over 30 PhD. He is also the recipient of the Yves Rocard Prize from the French Acoustical Society (1996), of the Alexandre Joannidès Prize from the Academy of Sciences (Paris, 2001) and received the medal of the Air & Space Academy (2016). He is currently an Associate Editor of the American Institute of Aeronautics and Astronautics Journal and is a Senior Member of AIAA. He also serves as an Advisory-Editor for Flow, Turbulence and Combustion.
