

Christophe Bailly is a Professor of Fluid Mechanics and Acoustics at the Ecole Centrale de Lyon (ECL) in France and is the head of the Center for Acoustic Research (ECL), which is part of the Fluid Mechanics and Acoustics Laboratory (LMFA, UMR 5509). He graduated from ECL (1990), received his PhD in Aeroacoustics from the Ecole Centrale Paris in 1994. After one year spent at the Centre National des Etudes Spatiales (CNES), he joined the LMFA at ECL in 1995. As lecturer, he has served in Turbulence at the Ecole Centrale Paris from 1995 to 2006, and serves in aeroacoustics at the Ecole Nationale Supérieure des Techniques Avancées (ENSTA ParisTech) since 2001. He is also with the Institut Universitaire de France (junior member 2007). His research activities lie in the area of turbulence, aeroacoustics and sound propagation. He is co-author, with Geneviève Comte-Bellot, of one textbook in turbulence (2nd version in English), has authored or co-authored more than 100 Papers in refereed Journals and co-supervised over 30 PhD. He is the recipient of the Yves Rocard Prize from the French Acoustical Society (1996), of the Alexandre Joannidès Prize from the French Academy of Sciences (Paris, 2001) and received the medal of the Air & Space Academy (2016). He is currently an Associate Editor of the American Institute of Aeronautics and Astronautics Journal, and serves as an Advisory-Editor for Flow, Turbulence and Combustion.
